OmegaPS LSAR - Data Administration

secure. manage. deliver.

PreRequisite: OmegaPS LSAR - Basic (recommended)

Classroom Duration: 1 day Virtual Duration: 3 x 2 hours

Effective use of the OmegaPS LSAR within an organization relies on system administrators understanding their Oracle installation and the use of the OmegaPS system administrator functions to manage projects, teams, security and data.

This course will provide OmegaPS system administrators with skills to effectively manage an OmegaPS instance and the projects and teams using it.
